

Crown Seat –Post Operative Instructions

- 1. Your new crown is now fit for chewing after approximately 30 minutes.**
- 2. Please brush and floss the new crown as with your other teeth. You can still get decay under a crown if proper oral hygiene is not performed.**
- 3. The crown can be sensitive to temperatures for 3-5 days. Please return to Valley View Dental if this should continue for a longer period of time.**
- 4. If you should notice the bite being a *little off* or *high* when chewing, please call our office to have this corrected**
